

A close-up photograph of a dark horse's head, focusing on its eye and the lower part of its face. The horse is wearing a mask made of straw or hay, which covers its snout and nostrils. The background is dark and out of focus.

Lewis Farms

35th Annual Bull Sale

*Saturday February 29, 2020
Spruce Grove, Alberta
1:00pm*

Welcme

Welcome to our 35th annual bull sale. Thank you to our friends, family and customers who continue to support our program. It is your dedication and continued belief in the LFE prefix that drives us to raise the best suited cattle for our industry. It has always been our priority to sell bulls to the commercial cowmen. Feedback and collective ideas from our customer base provide us with another tool in our decision making and selection process. Docility, fertility, maternal merit, soundness, and breed leading performance are key notes that we focus on.

We are always optimistic for the future of this industry. As producers we continuously face challenges such as weather, lack of feed and politics, which effect the agriculture community. It takes true character and perseverance to raise cattle in today's times and belief in the market as it continues to rise. Quality bred heifers are in high demand for springtime. Fat Cattle prices look very strong and sustainable.

We'd like to thank Leonard and Rhonda Mark for their continued partnership in this sale. This marks the 10th year Lenny has been selling his bulls in this sale. From year one with Justified, these bulls have continued to gain traction and meet the higher demands of the top stockmen today.

We are pleased and humbled to present our 2020 offering, we feel this is our best set of bulls to date. We pride ourselves in vast populated sire groups, more embryo transplants and the largest source of homozygous polled bulls to sell to date. We have gone the extra mile in genetic testing for Polled and color as well as Leptin testing. The extra age bulls continue to rise in popularity, meeting higher demands, breeding more cows, with less issues. We are calving more cows than ever before in our summer operation. Many half,

three quarter and full brothers on offer, creating large groups of closely related bulls showcasing the genetic predictability and uniformity amongst your calf crop. The success of this sale is based on repeat customers, with long standing relationships in pursuit of top-quality bulls.

We hope to see everyone on sale day, if you are unable to view the bulls prior to sale, don't hesitate to call one of us. The bull's videos will be up online no later than February 14th. Use our videos as another tool in your selection process. We look forward to this event and seeing everyone on sale day!

Sincerely,
The Lewis Family

Terms & Conditions

Cattle will be sold under the standard terms and conditions put forward from the breeders associations and Lewis Farms. Available upon request.

Online Viewing & Bidding

Videos

Videos are complete and will be online early February.

Videos can be viewed at:
cattlevids.ca or lewisfarms.ca

Location

Lewis Farms is located 2 miles south of Spruce Grove on Secondary Highway 628 between Range Roads 271 and 272. The main yard and sale barn is located on the South side of the road.

Bull Selection Assistance

Purchasing bulls is very important for the direction and production of your cow herd. It is a never-ending search for bull power to improve traits. Being hands on in our breeding program and knowing your cow herd, we would be pleased to assist you in identifying bulls suited for you. We have developed a wide genetic base in our bulls from power bulls to heifer pen orientated, calving ease bulls throughout every segment.

Sight unseen purchases guarantees 100% satisfaction. We would be pleased to personally serve you.

Sale Day Information

Agenda

Friday, February 28, 2020

Commitment to Customers

Volume Discounts:

A minimum of 2 bulls purchased can trigger the volume discount. The Discount will start at 2% beginning at \$15,000 and will increase by 1% every \$15,000, up to a maximum of 7% on the entire purchase.

The discount will only apply to bulls that are paid for in full on Sale Day. Absentee buyers will have 30 day extension for their discounts. Partner bulls will not apply.

Free Delivery & After Sale Options

Option A: Free delivery will be provided by Lewis Farms to central points in Western Canada at the convenience of Lewis Farms, Eastern Canada will be cost shared.

Option B: Lewis Farms will keep bulls until May 1, 2020 for no charge. Then by that time the bulls will be picked up unless previous arrangements have been made. Lewis Farms insists all bulls be insured or covered with the Lewis warranty while at Lewis Farms.

Option C: Purchasers wishing to pick up their animals on sale day will receive a \$100 discount per bull purchased.

Polled Testing

A majority of the red and black Simmental bulls are homozygous polled tested. If it simply says Polled, it is because the bull was not tested. Our herd is over 95% homozygous polled. If we had a heterozygous test, it is illustrated. Homozygous polled represents that the progeny can not have horns irregardless of the dam.

Color Testing

A number of black bulls have been color tested for color expression if not knowing by parentage. A homozygous black bull will not sire a red calf. A heterozygous black bull could sire a red calf. Full blood bulls marked DLF Duluter Free have been tested.

Leptin Testing

For the past 8 years we have been Leptin Testing the sale offering. Leptin is a protein found in the white fat tissue. The more leptin produced, the stronger the signal sent to the brain to reduce appetite, energy utilization and fat deposition. 3 results are possible from a Leptin Test; TT, CT and CC. TT cattle tend to finish quicker in feedlots and improve marbling on feeder cattle. CC scoring cattle will take a longer period

of time to meet finish grade, however they will increase red meat yield and ribeye in your carcass. We have leptin tested some bull this year. For further information contact Kyle. Results are not published in the catalogue.

US Export

With regards to exporting bulls out of the country or for testing for admission to stud, Lewis Farms will arrange for all the tests, but the cost will be borne by the producer.

Health Care

All bulls to be sold are vaccinated and boosted against; IBR, P13, BVD (type 1 & 2), BRSV, Histophilus, Mannheimia, Pasteurella, 8-Way Blackleg. Vaccines given are Vista Once and Vision 8 Somnus. Treatment using Ivermectin and Safeguard for both internal and external parasites.

This comprehension health program allows our bulls to be as healthy as possible and protected against all the common communicable diseases or the core vaccines used in the industry.

If and when footrot vaccine is given the initial and booster vaccine is given. This is indicated on the semen evaluation form as footrot vaccine given yes or no. Please have a close look at the semen evaluation form and any questions don't hesitate to ask me. Roy Lewis DVM

Breeding Soundness Evaluation

We look for 3 factors: Spermatozoal motility, morphology and scrotal circumference as well as doing a physical examination and watching the bulls walk. During collection of semen we closely check the penis and inspect for signs of abnormalities.

All bulls are sold who exceed one year of age will have been classified as satisfactory in all categories and give us all indications they will go out for you and become good breeding herd bulls. All scrotal measurements will be posted on the supplement sheets.

Deferred semen bulls will be announced sale day.

The only components which are not tested are the libido and the bulls ability to breed. This component is up to you, the purchaser. It is absolutely essential to watch your bull on his first few services to make sure successful breeding is occurring. Any problems or concerns with your purchase(s), please direct back to Lewis Farms and we will check into them for you.

Affordable Bulls

In the 2019 Sale 70% of the bulls in the offering sold from \$4,000 - \$7,000

Lewis Farms Breeding Season Warranty Program

Lewis Farms guarantees to sell you a bull that is structurally sound, a bull that has passed semen test done by a licensed veterinarian.

Should any Lewis bull fail to be satisfactory breeder, unable to physically service a cow or heifer, he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question or a credit will be given towards the purchase of another bull.

We guarantee to provide you with a sound breeding bull. We, however, will not provide replacement or adjustment for physically injured or mismanagement. Bear in mind, we stress the importance of Lewis Farms Breeding Season Warranty or Third-Party Livestock Insurance:

Canadian Farm Insurance – Kolton Kasur
780.387.8376

Our warranty program offers a warranty in a language you can understand. While under our warranty your bull is covered for injury, sickness or death. We will service you needs with another bull or a credit to next years sale. Should you have any problem with a bull, contact Lewis Farms directly at 780.962.5050 or through Kyle or Ken's cell phones. We require your veterinarian to complete a report and fax or email it to Lewis Farms. We will work with you to make sure your cows get serviced and your are satisfied with your purchase. We have back up bulls set aside for customers.

Lewis Farms Breeding Season Warranty has been developed to protect your purchase during the most critical, high risk time of a bull's life, the breeding season.

We offer the following options which are the buyers responsibility to purchase at time of settlement:

Option	Duration	Rate
Option 1	3 Months	5%
Option 2	6 Months	8%
Option 3	12 Months	12%

Notify Lewis Farms immediately by phone 780.962.5050. Employ a licensed veterinarian to treat, diagnose and/or fill out a vet form. If the animal dies, a post mortem may be required.

Coverage – During Breeding Season:

In case of loss, Lewis Farms will not be responsible for anything up and above the purchase of the bull.

Option 1 & 2 – Cover 100% of the purchase price less salvage value when possible

Option 3 – extended season, covers the animal during and after breeding season. We will cover 80% if the original value, less salvage when possible.

Lewis Farms is responsible to make settlement of an approved warranty claim with a suitable replacement.

Exclusions to Warranty

Injury or death due to malicious, willful or intentional acts or mistreatment by you or your employees are fraudulent claims.

Bull Nutrition

I have enjoyed working with the Lewis Farms operation as it has such deep roots in the seedstock industry. The LFE brand is recognizable around the world for quality genetics. The folks at Lewis Farms take pride in the craftsmanship of raising bulls for seedstock producers and commercial cattleman.

The cowherd is on a year round mineral program which is so important to the overall health and longevity of the bulls. The bulls are raised on a forage based diet that maximizes their genetic potential. The bulls are fed a

balanced TMR to promote lean muscle growth. The main focus is on gut health that promotes proper rumen health at every stage of development. The bulls are also fed organic minerals to help stimulate an elevated immunity and proper growth. The overall nutritional health and development of the bulls and the entire cow herd is of utmost importance and is constantly being tweaked to meet environmental and seasonal conditions.

If you have any questions about the Lewis Farms nutritional program please feel free to call. Good luck on sale day!

- More baldies offered this year to meet growing demand
- This Officer son is no slouch
- Great birth to weaning spread

In Memory of Carol Bickell (Lewis)*December 7, 1941 - January 9, 2020*

We at Lewis Farms would like to dedicate this years sale and catalogue to the memory Carol Bickell. Carol was Jack Lewis's (Pops) kid sister ten years his junior. She grew up on the farm and as a kid picked potatoes and worked with the livestock and enjoyed riding horses.

Carol became a registered nurse and after Marrying Harvey Bickell in 1967? Lived in exotic lands such as Libya while Harvey pursued his petroleum engineering career. They returned to Calgary where Harvey got into gold exploration and this passion still continues today

Carol never lost her Lewis Farms roots and in the 1980s owned a few top end fullblood cows that were flushed here at the farm. This happy partnership lasted for many years.

Carol has spent the last thirty to thirty five years on Gabriola Island (off the coast off Nanaimo) enjoying the great climate and friendly neighbors.

Carol was a real dog lover and had several great pets over the years She has fought a long courageous battle with cancer for the last seven years passing away January 9th 2020. We will miss one of our family that was there when this farm was started and she was kept abreast of developments with numerous long talks with Jack over the years.

Westman Farms

Agriculture is a business that, us as farmers and ranchers, are blessed to do with family. Many cattlemen and women around are the derivative of many generations of hard work, blood, sweat and tears, Westman Farms is no different. Our relationship with Lewis is of similar length spanning over forty years.

From high quality cattle to some of the best people in the industry we have had great pleasure in dealing with the Lewis family for many generations. Lewis and Mark Land and Cattle excel with multiple groups of ½ and ¾ brothers as well as a large quality in numbers to choose from. Red, blacks, Fullbloods whatever you are after Lewis Farms Bull sale is an excellent source of sound, functional cattle.

Another strength we find with these bulls is the Female side of there pedigrees. Temperament udders, and maternal traits are very consistent in this program. Westman Farms hold an annual bred heifer sale first Monday in December every year and is pleased with the quality of females from these bulls.

This year we also embarked with a bull in the purebred show world. We headed off to Louisville Kentucky with LFE Murray 503F, Lot 400 from last years sale. Home of the North American Livestock Show with a World Fullblood Simmental show as one of its competitions. My father Murray was a great competitor, father and lover of the agriculture industry. LFE Murray 503F didn't weaken either, LFE Murray 503F was named supreme champion Fullbloods at the NAILE! Mark Land and Cattle and Westman Farms look forward to what he has instore in the future!

Great people, great cattle buy with confidence, we do!!!

*The Westman
Family*

We would like to extend a thank you to Wade Koberstein of Triangle K Simmentals. Wade purchased the pick of our heifer calves in the Fallsview sale, at Niagra Falls this past December. The Koberstein family operate a mixed farm right outside of Barrhead, AB. We look forward to working with Wade, and wish him success in the future with his selection.

In Memory of Walter Gerdtz

December 21, 1933 – May 12, 2019

Walter, Rosemary and family have been great family friends for many years. Well known in the agriculture community through his years of running Great West Feeds in Red Deer. Walter will be remembered for his hard work ethic, love of dancing and a unique contagious laugh.

Involved in many Ag endeavors form Ranching in South America to Charwil Ranches at Erskine. Walter's interest in cattle ranching found its way out to the Hoadley-

Bluffton area where C & G Ranching was started back in the 70's. Again, with Walter in the supporting silent role he put together a strong ranching operation. For most of C & G's existence Roy & Darial Soroka have been running the operation.

- Competes in the top 15% of the breed for CE and BW
- Rambler was purchased from Rust Mountain View Farms with Deeg Simmentals

Montgomery Farms Ltd.

Farming in the Westlock county, Dave and Mike, along with our families have been in the commercial cow business since 1986. This year will be our 28th year purchasing bulls from Lewis Farms. We feel the wide range

of genetics they have in their operation has made them a real leader in the business. Our goal has been to raise a big calf off a proven cow. Their quality and commitment has allowed us to attain calving ease at a high rate of growth. We also appreciate the wonderful service and support we have received through the years.

MARK AND + CATTLE

Welcome to the 35th annual bull sale at Lewis Farms. Once again I am honored to be selling my Fullblood Simmentals yearlings and off age bulls in the sale. Each year that I raise bull calves, I do my best to have consistency of power, pigment, calving ease and lots of eye appeal. In November 2019, Jordan, Luke and I took two of my home-grown bulls to Louisville Kentucky to enter the American International Livestock Exposition, where we won Supreme. It was a dream come true to showcase Canadian made traditional bulls to a North American audience. This year's offering will be highlighted with Breaking Curfew and Paydirt sons. There will be polled, horned and fullfleck bulls on offer.

Once again thank you to the Lewis crew. If you have any questions, feel free to call. Hope to see you at the sale.

Lennard Mark & Family

619 Land & Cattle Co.

619 Land & Cattle Co. is a mixed farming operation near Vermilion, AB consisting of grain land and a herd of 500 Simmental crossed cows. We have reds, blacks, and full blood cows that we breed to a bull battery consisting of mostly full blood bulls purchased through the Lewis Sale.

We've used fullbloods for many years now and find we get a little extra out of our weaning weights with them! When the red and blacks are bred to nondiluting fullbloods there are some chromed up calves produced. 619 breeds the second calving cows to easier calving fullbloods. As mature cows we use fullbloods with a bit more performance in their genes.

20 years ago I attended my first Lewis Bull Sale. To say the Lewis clan along with Leonard Mark and his family are the stand up type of folks you want to make a long term business relationship with would be an understatement. They are friendly easy going folks that stand behind their bulls and I'd recommend to anyone to buy with confidence at the Lewis Farm in February!

Donation Item

By Lloyd Giebelhaus - Stone Sculptor

Lloyd Giebelhaus is an Albertan, born and raised on a farm near Vegreville, but has resided near the small community of Sangudo for the past 50 years. Lloyd has always been involved in agriculture, however, as he neared retirement felt that he could not chase cows forever, therefore deciding to take up a hobby. Lloyd has always been interested in woodworking and any skills requiring some imagination and use of his hands. So why not try soapstone carving.

Lloyd came to us with his idea to donate a couple of his sculptures to be auctioned off during our sale to help raise money for the Heart and Stroke Foundation in memory of Laverne Lewis. This is a cause that is near and dear to us, thank you Lloyd for your generous donation! Lloyd's carvings are available through Rowles & Company Ltd. or by contacting him directly.

#1408 is a large
Alabaster Polar Bear
(gallery price approx.
\$2500 - \$3000)

#1801 is a small
Soapstone Buffalo
(gallery price approx.
\$550 - \$600)

All Proceeds go to the Heart
& Stroke Foundation

- These summer born bulls are produced in large groups, dam's are run on large areas of grass during the breeding months. The black angus cow base splits into two groups. With grass management at the forefront of the decision making, individual bulls do not get their own group. In some cases, 3 to 4 bulls are situated with a group of cows.
