Welcome

Welcome to the 30th Annual Northern Progress Bull Sale! At RSL Red Angus we take great pride in the bulls we raise to sell at our annual sale. We have always strived to raise bulls with very good calving ease along with good muscling and very good performance.

This year the bulls have been hand fed whole brown oats mixed with 3-4 lbs of a special Blair's pellet with protein and trace minerals. They also get free choice grass hay and free choice corn silage.

RSL truly appreciates all of our past bull customers over the past 30 years and always look forward to meeting new bull buyers. About 75-80% of our bulls sell to repeat buyers.

We are willing to take bulls back to our farm after the sale and care for them until an agreed upon time and deliver them to their new home. Bulls returning to the farm need to be insured.

The bulls may be viewed at the farm anytime by calling 306 441-5010 or 306 937-2880

If you can not attend the sale please phone ahead to discuss which bulls might work best for your needs. Robert or any of our very capable sales staff can handle your order with satisfaction guaranteed. You can also watch the sale and bid on bulls on DLMS.ca. You must register for this ahead of sale day.

The two year old bulls in this sale were picked for twos as calves pastured separately weaned later, backrounded the first winter on silage and chopped hay and straw, then grassed from June 1st to October 1st, when they come home and are fed very similar to the yearling sale bulls.

A lot of things have changed in the last thirty years in the cattle industry but one thing has stayed the same, money spent on a good bull is always a good investment.

If we can assist you in any way to make your selection, or if you have any questions about the bulls please call us anytime at 3069372880 or 3064415010.

PS everyone in our family is doing well and we are enjoying the interesting times with 6 granddaughters. They are growing like weeds.

- Robert Laycock, RSL Red Angus

BULL VACCINATION PROTOCOL

As calves - Bovishield Gold & Ultrabac 7

At weaning - Bovishield Gold, Ultrabac 7 & Ivermectin

Additional Ivermectin pour on December 20 and injectable Ivermectin & Boss January 20

All bulls in sale will have passed a semen check by licensed vet.

RSL Red Angus will offer to take sale bulls back home to feed and care for them until an agreed upon delivery time. We will do this free of charge as a service to our customers.

We would like bulls returning to our farm to be insured for injury or loss.

You do not have to bring your trailer on sale day. Just load up the family or some friends and come to SLS for a complimentary lunch, an outstanding bull sale and some hospitality after the sale.

Please bring this catalogue with you to the sale

Welcome to the 2020 edition of the Northern Progress Red Angus Bull Sale. RSL Red Angus have once again consigned an outstanding set of yearling and two-year-old Red Angus Bulls to this year's sale line up. RSL are leaders in the angus industry in breeding calving ease genetics; you will notice generations of calving ease sires stacked up in the RSL pedigrees. The exciting thing about the RSL bloodlines is the fact that Robert has continued to use sires that provide excellent performance as well. The optimal goal as a seed stock producer is to breed cattle that calve easy and raise bulls that sire steers and heifers that excel in performance. I believe Robert has achieved this goal, and that is why for years cattle producers have trusted his breeding program and continue to come back each and every year to buy a Red Angus bull. The Northern Progress Bull sale attracts many repeat buyers, due to the fact that the bulls work. Robert is a master at developing bulls for longevity, the rations are carefully designed for an acceptable weight gain allowing the bulls to grow and develop at the right pace. As a result, the RSL bulls get out and breed and most important they last. Robert eats and breathes the Red Angus seed stock business, studying pedigrees, the latest management practices and strives in offering top notch service to his customers. The bulls in this sale are long, smooth, carry excellent muscle pattern and have great temperament. The RSL cow herd is very fertile and it shows up every year in the bulls, promoting excellent semen evaluations and large testicles. One of the nice things about buying a Laycock bull is that you are dealing with a true cattleman. I recommend you attend this year's Northern Progress Red Angus Bull sale, the Laycock family will supply you with a bull that I know you will be very happy with. See you at the sale.

Red TR Little Deep has become a major part of our breeding program at RSL. The quality, muscling, depth of body, and docility of his sons is second to none. His daughters are also very deep bodied, well muscled yet very feminine. This consistent, extreme high quality of calves with both sons and daughters is very impressive. In 2018 we bred 45 spring cows and 30 fall cows to him and he held his condition very well. Little Deep has very impressive muscling, body depth, and hind quarter yet is very smooth shouldered. Average birth weight of his calves is 83lbs with only a few over 90 lbs.

Moonshine Man 647A is the excellent result of an embryo package Six Mile bought at Red Round Up. When I saw Moonshine Man at Six Mile's 2014 bull sale I knew I wanted him as a big part of my breeding program. Very low to moderate BW, excellent style and muscling and consistent dark cherry red colour have been passed on to his offspring, making them very appealing. Moonshine Man's daughters are eye appealing moderate sized Red Angus females with excellent udders.

-2.6	+31	+58	+21	+37		84 lbs	-	

We bought Red Man as a mature bull from Clint Morasch. I was very impressed with this consistent low birth weight, early muscling on his calves and excellent performance birth to yearling. His daughters are very excellent producers and are very consistent in calving ease and udder quality. We lost Redman 1T in this second breeding season but had some semen that we bred with an are very glad we did. Some excellent sones that would work very well in a purebred or commercial herds.

YEARLING BULLS

Our yearling bulls have been fed brown oats along with 3-4 lbs of a Blair's Ag concentrated protein pellet with a high level of chelated minerals. We feel this will allow the bulls to show their growth and muscling potential in a much safer way than a bull pellet that may contain ingredients that are harmful to the bulls longevity and long term health. Weaned October 4, 2019.

- Dark red, very smooth made bull
- Dam raised an excellent Ice Man son that sold to Bob Jensen for \$8500 in 2017

TWO YEAR OLD BULLS

The two year old bulls in the RSL Red Angus program are picked for twos as calves and are raised differently. They are pastured separately, weaned later, back grounded the first winter on silage and chopped hay and straw. Grassed from June 1st until late September and then fed similar to yearling bulls. Brown oats with 3-4 lbs Blair's pellets for protein and minerals along with silage mixed with chopped hay and straw. They also get free choice grass hay. Weaned October 8, 2018.

FALL BULLS

The fall calving program is something we have been doing for 25 years. We bought fall born heifers from Bruderhiem, Alberta. The extra age on these bulls make them able to cover more cows or heifers than yearlings and keep their condition better. They spend their first winter on their mothers then are grassed with the 2 year olds and fed with the twos from October till sale. They are smaller bulls but are the same genetics as the rest of the bulls. This can be a definite advantage for people breeding heifers because they can get 1 – 2 more years of heifer breeding before they get too big. Very good vale and a lot of breeding power. The bulls born for this sale came out slightly larger birth weights because of diet but are shaped right and would work very well for heifers or cows.

-2.8	25	46	16	29	75 lbs	- lbs			

- Mother was a super producing chief daughter that added many replacements into our herd in her 17 years
- Also sons selling to Allen Cave (06), Pinehurst Farms (08), Houk Farms (11) and Daryl McCarthy (13)
- Also bred heifer to Nordal Angus for \$4650
- This bull would work on any heifers or cows and add super maternal traits and longevity to his offspring (keep all daughters)

BIDDING: Each animal will be sold to the highest bidder whenever there are two or more bids.

BIDDING DISPUTES: The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS: The terms of the sale are cash. The right property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered, and cared for at the purchaser's risk for a reasonable time.

DELIVERY AT COST: Or haul your own and save delivery costs (See inside front cover for details).

INSURANCE: An insurance representative of a major livestock insurance company will be present to care for insuring cattle.

CERTIFICATE OF REGISTRY: A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

HEALTH: All cattle will be in excellent health.

ANNOUNCEMENTS: Changes of information contained in the catalogue relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over the printed matter in this catalogue.

BREEDER'S GUARANTEE: All animals sold are guaranteed breeders by the owner. Any animal that has not proven itself a breeder within six months after the date of sale, if in healthy condition, may be returned to the seller at the buyer's expense. The seller reserves the privilege of trying for a period of six months to prove the animal a breeder. The seller at his option may either return the purchase price to the buyer or replace the animal with another of equal quality in full settlement of ALL claims. Yearling bulls shall be guaranteed breeders for no more than twenty-five females. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the specified time above, and any animal returned must be free from disease and in good health. All bulls will be scrotal measured and semen tested prior to sale and sell as guaranteed breeders. Scrotal measurements will be available sale day.

IDENTIFICATION: Each purebred animal carries a readable tattoo.

LIABILITY: Although every precaution will be taken to protect the safety and comfort of the buyer, neither owners, sale manager, clerks nor anyone connected with the sale assumes any responsibility, legal or otherwise, for damage of any kind.

CONTRACT: The above terms and conditions shall contribute a contract between the buyer and seller of each animal sold.

SEMEN: Consignors reserve the right to collect semen on sale bulls for in-herd use only.
